

3 months **free** membership

Since our formation in 1937, the LRTA has promoted the adoption of environmentally-friendly urban rail systems. Our worldwide membership includes tramway and light rail professionals, local and national authorities, planners, designers and operators, as well as enthusiasts and campaigners.

For potential new members, we are extending the offer of a free three-month digital subscription to **Tramways & Urban Transit** - the sector's leading resource for news and analysis of the global light rail marketplace.

The benefits of LRTA membership include:

- A monthly subscription to *Tramways & Urban Transit* (TAUT), with the option to add the LRTA's historical quarterly journal *Tramway Review* (TR).
- Discounts on other publications produced or sold by the LRTA.
- Area meetings with regular talks and discussions, as well as online presentations from recognised experts in their fields of study.
- The opportunity for group visits to light rail systems, both in the UK and overseas.
- The chance to be part of an organisation that is putting the planet first through its powerful campaigning for green transport.

Choose between (offer available to new members only):
